

BUILD A FOOD BUSINESS THAT WILL LAST A LIFETIME!

With the absolute best health food products on earth!!!

The reason that Risotriene E7, Collastin, Liver Boost, Aloe 7000, etc. are the right products to promote in our business is because they provide tremendous noticeable benefits addressing the roots of illness for all major common health concerns and the benefits never stop. Readily assimilable concentrated food is the best first answer to improve and maintain anyone's and everyone's health on all levels. 80% of surveyed adult population are looking for better health. Of this population a good number will be receptive to a real solution that tastes just fine! The results make the products indispensable, meaningful and fulfilling for all involved. So what will it be? Chocolate?

E7 gives us more than 40 servings of vegetables in a delicious shake.

Vitamins have proven wasteful on many counts. At the very best 50% can be digested and assimilated while the other 50% is cycled through the kidneys and liver to filter and dispose—hard work for the kidneys and liver. Many vitamins are not even digested at all and go straight through intact. Miracle juices are at best trumpets—single instruments—while Essential Seven is like a beautiful symphonic orchestra of health replenishing nutrients. Each day our nutrient needs will be different, but with E7 and its huge variety of assimilable food nutrients, our body can always draw out the specific resources it needs and never be missing the nutrients that will keep us healthy.

E7 with RiSoTriene put simply—the **smartest eating habit that anyone can choose—once they know about it!** You have your work cut out for you now: communicate, steward, and reap the rewards of a lifelong unstoppable health enterprise. Customers of other companies that sell vitamin products will lose their customers to us—it is inevitable, as the world catches on to age old wisdom of our father of modern medicine: **“let food be our medicine and medicine be our food”**.

The least expensive way to build your business

We are often asked, what is the least expensive way to build a Healthy-Living/Integris business or any business for that matter?

The answer is: to call others who have shown an interest in your product or service in the past. We offer you free previous customer leads and by using your phone you are can immediately build your business. In this way, if you get a phone service with unlimited dialing, you won't pay long distance fees so you can work without fear of a gargantuan phone bill. We have weekly/daily training calls to help you brush up on scripts and on troubleshooting objections. About one out of five will become customers after listening to the National Health Briefing and receiving a follow-up phone call from you.

We have over 50,000 leads from people who have inquired about or used Integris products in the past—yours to call for free. Calling them is in your hands and success is guaranteed if you will simply pick up the phone and follow our proven process.

Listen to our scripts live, ask questions and sharpen your skills! Each Monday through Wednesday afternoon, Grace allows anyone to listen in or even participate as she “calls prospects live”. If community gives you the courage to call others... you'll find it here.

Got Capital? Too busy to mail samples to prospective customers? —Larry Isn't!!! (Don't tell him I said this, but he is better than a secretary)

Larry Hildebrant, Oregon, is dying to be able to send your customer samples, CDs and introductory letters on your behalf! He's got the latest computers, printers and CD duplicators and is as much at home with a computer as most people are with a micro-wave.

Larry has promised to send out any Integris IBOs' customer contact information for everyone that asks, at a price that is probably lower than you can do it yourself. So, you can concentrate on building relationships and leave the tedious follow up to someone else.

If you are interested, send an e-mail to ljhildebrant@comcast.net.

On a shoestring or a dime, you can do this business. If you have some capital, it is a capital idea for Larry to do the burning, labeling, stamping and sealing your personalized letters, information, and samples for less than it would cost if you had to do it yourself! Nice touch and your powerful, capable and reliable resource. Ask him!

“Integris is the best vehicle for creating residual income that will last a lifetime because it combines superlative products with the power of true networking.

Leading with the Best Philosophy and Products

In the deepest recesses of the heart and mind is the urge to seek for what is better and solve what is unanswered. Many networkers mistakenly believe that the particular company one represents is not very important. Such people believe that “if one diligently promotes the nutritional products from any top networking company, health benefits will result”.

The only problem with that statement is that it is ultimately downward leading and eventually catches on the bone of half-truth. It was Bill Gates who said, “Having the best product is the secret of long-lasting success.” Human nature drives people to seek the best as well as remain loyal to the best. When you build a business of your own with which you wish to retire, and not rebuild again and again because you lose customers to better solutions every five or fewer years—you need to build upon the right foundation.

Integris’s philosophy of concentrated foods is the best—the products are in a league by themselves—they are what seekers will stay for. They provide the body with truly bio-available, nutrient-dense satisfying food tools that allow the body to take care of itself better than with any other nutraceutical products on earth. So, help people notice the best, like you have—with a little daily exposure, promoting and uncovering—soon many people will prove grateful for *something real* and remain loyal. **Lead with our products—you have found the best.**

Be ready to tell everyone why “*Your Store’s*” products are the best

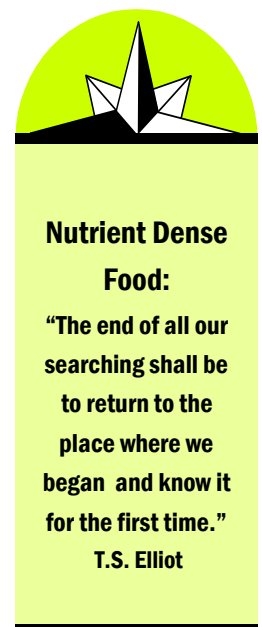

Eating a large variety of nutrient dense food is ultimately the most important factor for maintaining a healthy body. **Food variety** and **nutrient dense-ness** are the keys to providing the “food tools” the body needs to repair and maintain its many cells and processes. This truth is so common “sensical” that no one can refute the logic. E7 is a huge variety of nutrient dense food and yet it is convenient (another important factor). And, because your vendor, Integris, provides products developed by clinical doctors who deal daily with degenerative disease and who refuse to just treat symptoms, who go after root causes, they have seen E7 and RiSoTriene, vegetables, fiber, high quality protein, deep sea minerals and polyphenol rich herbs—create “health miracles” time after time again—and so have you. You are your customers’ “store” for true health solutions.

MY STORE What do you mean “My Store”?

Integris is your vehicle, your vendor. Healthy-Living is your coach, trainer and support for building **YOU** and **your** business—**your Health Food Store!!!**

If you have ever heard the statement “you are selling You” it means that you are always selling you. If you are married, your other half didn’t marry something you believed in or relied on, or pointed to. He or she married YOU! It wasn’t about convincing your other half that you had the right beliefs or framework to your life, it was about you being a positive connection—an inspiration.

It is similar in your relationship with your customers. More than pointing to Integris, let your knowledge and your passion inspire others to be better. Your business is to bring to them the best in their life! It so happens that we have found the best vendor on the planet. And, you are the best also, you are the guide your customers need! Guide them to the best... that is all you can do and the health improvements, friends and money will follow as much as you lead and open your store to others.

Nutrient Dense Food:

“The end of all our searching shall be to return to the place where we began and know it for the first time.”

Kona Gold Minerals—Lucky Accident

About ten years ago, a college student in Hawaii conceived the idea of generating electricity using thermo-couple principles. He believed that the temperature difference between cold, deep ocean water and warm, surface water near Kona Hawaii could be profitably used to generate electricity... and got funding for a fantastic project.

A pipeline (1 meter in diameter) was built that brought cold ocean water (2,000 feet deep) up to the surface so that electricity could be generated from the temperature difference between it and warm surface water. Unfortunately, the cost of pumping the water turned out to be equal to the value of the electricity generated—no net gain... and the student's project became an economic failure. So, he thought...

Pipeline Near Keahole Point, Kona Hawaii that brings us Kona Minerals

Then, it was discovered that this deep sea water was incredibly nutrient rich (expired plankton & diatoms)—in bio-available minerals. It was also found that these minerals carbon dated to 800-1,000 years old and were 100% free of heavy metals and pollution. It was further discovered that the desalinated, dried deep sea water (powder form), when ingested, assimilated rapidly and completely—in the blood stream in less than 90 minutes.

And so, the product, Kona Gold Minerals, was born. Kona Minerals are available as a separate product, but are also part of Essential Seven—the only pristine, toxin free, full spectrum ionic form minerals available to mankind.

And so, a lucky accident of finding bio-available minerals in a college student's failed energy project is how we have Kona Gold Minerals today. Indeed, do you even have to say it? Yes, be proud, we have only the very best.
